***REVISED SEPTEMBER 2010**

Nominate Your Favorite Caregiver!

This fall, give someone you know an opportunity to win a little rest and relaxation at home!

In recognition of National Caregivers Month AFRC is giving a lucky caregiver a full year of **FREE** house cleaning! Anyone can vote and you have until 24 October, 2010 to nominate your favorite caregiver to win this and other great prizes!

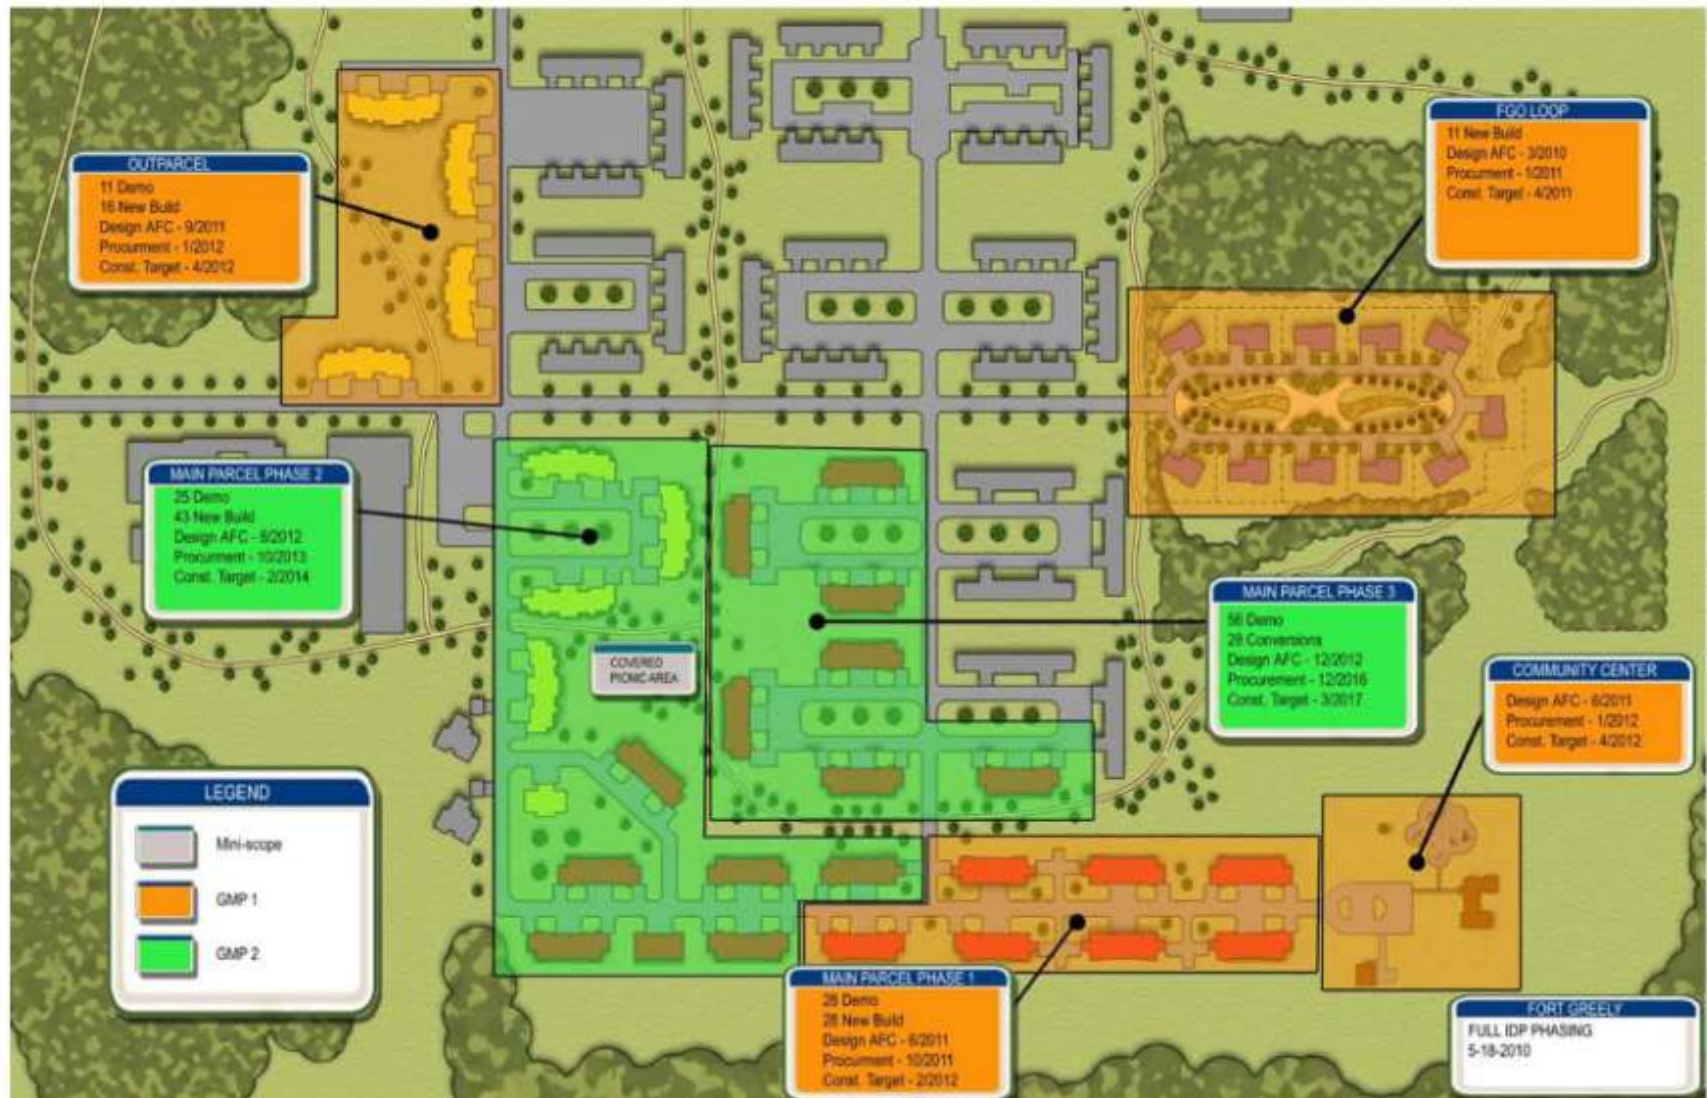

Please logon to:

<http://www.armymwr.com/travel/recreationcenters/caregivers.aspx>
to cast your vote and view rules and regulations.

Holiday Gala

Greely Land Plan

- The long awaited Financial Closing will be completed by September 24th. The closing will include a short term conveyance of 48 UPH residences to NHC for use during the 7-year IDP to insure no residents are displaced off-post.
- DB Contractor to complete the remaining amenity work before the end of September
- Construction will begin in September on Utility Infrastructure as well as a Utility Building serving FGO Loop residences. By advancing this part of construction, residential construction in the FGO loop should be unimpeded during the 2011 construction season.
- The 2011 Construction season will include the construction of eleven (11) single family homes in the FGO loop and infrastructure in advance of the 2012 construction season.

North Haven Communities

Current resident activities:

- Reading hour is held the first and third Fridays of each month. Bring your kids over for a story, do a craft and have a snack.
- Ladies night out is the third Thursday of each month. This month is Bingo.

Past resident activities:

- National Night Out
- Haunted House
- Easter Egg hunt
- Beach party
- Cookie swap and Holiday recipe exchange.

And much more...

Holiday Celebration

Yum...cheesecake!

About ICE - DoD's Interactive Customer Evaluation System

ICE 2.2.6 (28 April 2006)

The Interactive Customer Evaluation (ICE) system is a web-based tool that collects feedback on services provided by various organizations throughout the Department of Defense (DoD). The ICE system allows customers to submit online comment cards to rate the service providers they have encountered at military installations and related facilities around the world. It is designed to improve customer service by allowing managers to monitor the satisfaction levels of services provided through reports and customer comments. ICE provides the following benefits:

- Allows DoD customers to quickly and easily provide feedback on service provider managers.
- Gives leadership timely data on service quality.
- Allows managers to benchmark the performance of their service providers against other DoD organizations.
- Encourages communication across organizations by comparing best practices to increase performance results.
- Saves money.

The Department of Defense Quality Management Office (DoD QMO) provides the ICE system and is responsible for high-level system administration and maintenance. Organizations using ICE are responsible for maintaining their own service providers.

If you are interested in utilizing ICE, please visit our page about **becoming an ICE site**.

For additional information or to submit comments/suggestions about the ICE system, **please use our contact form**.

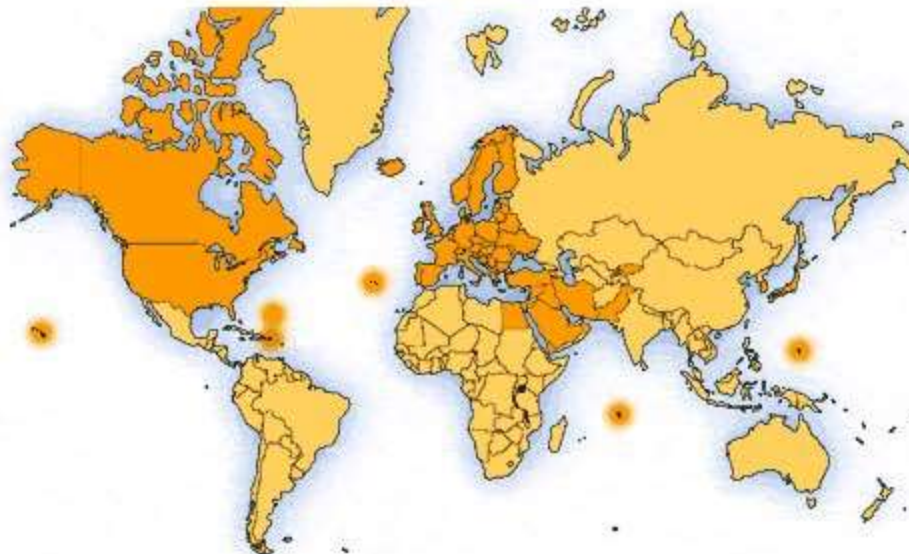

Welcome to ICE

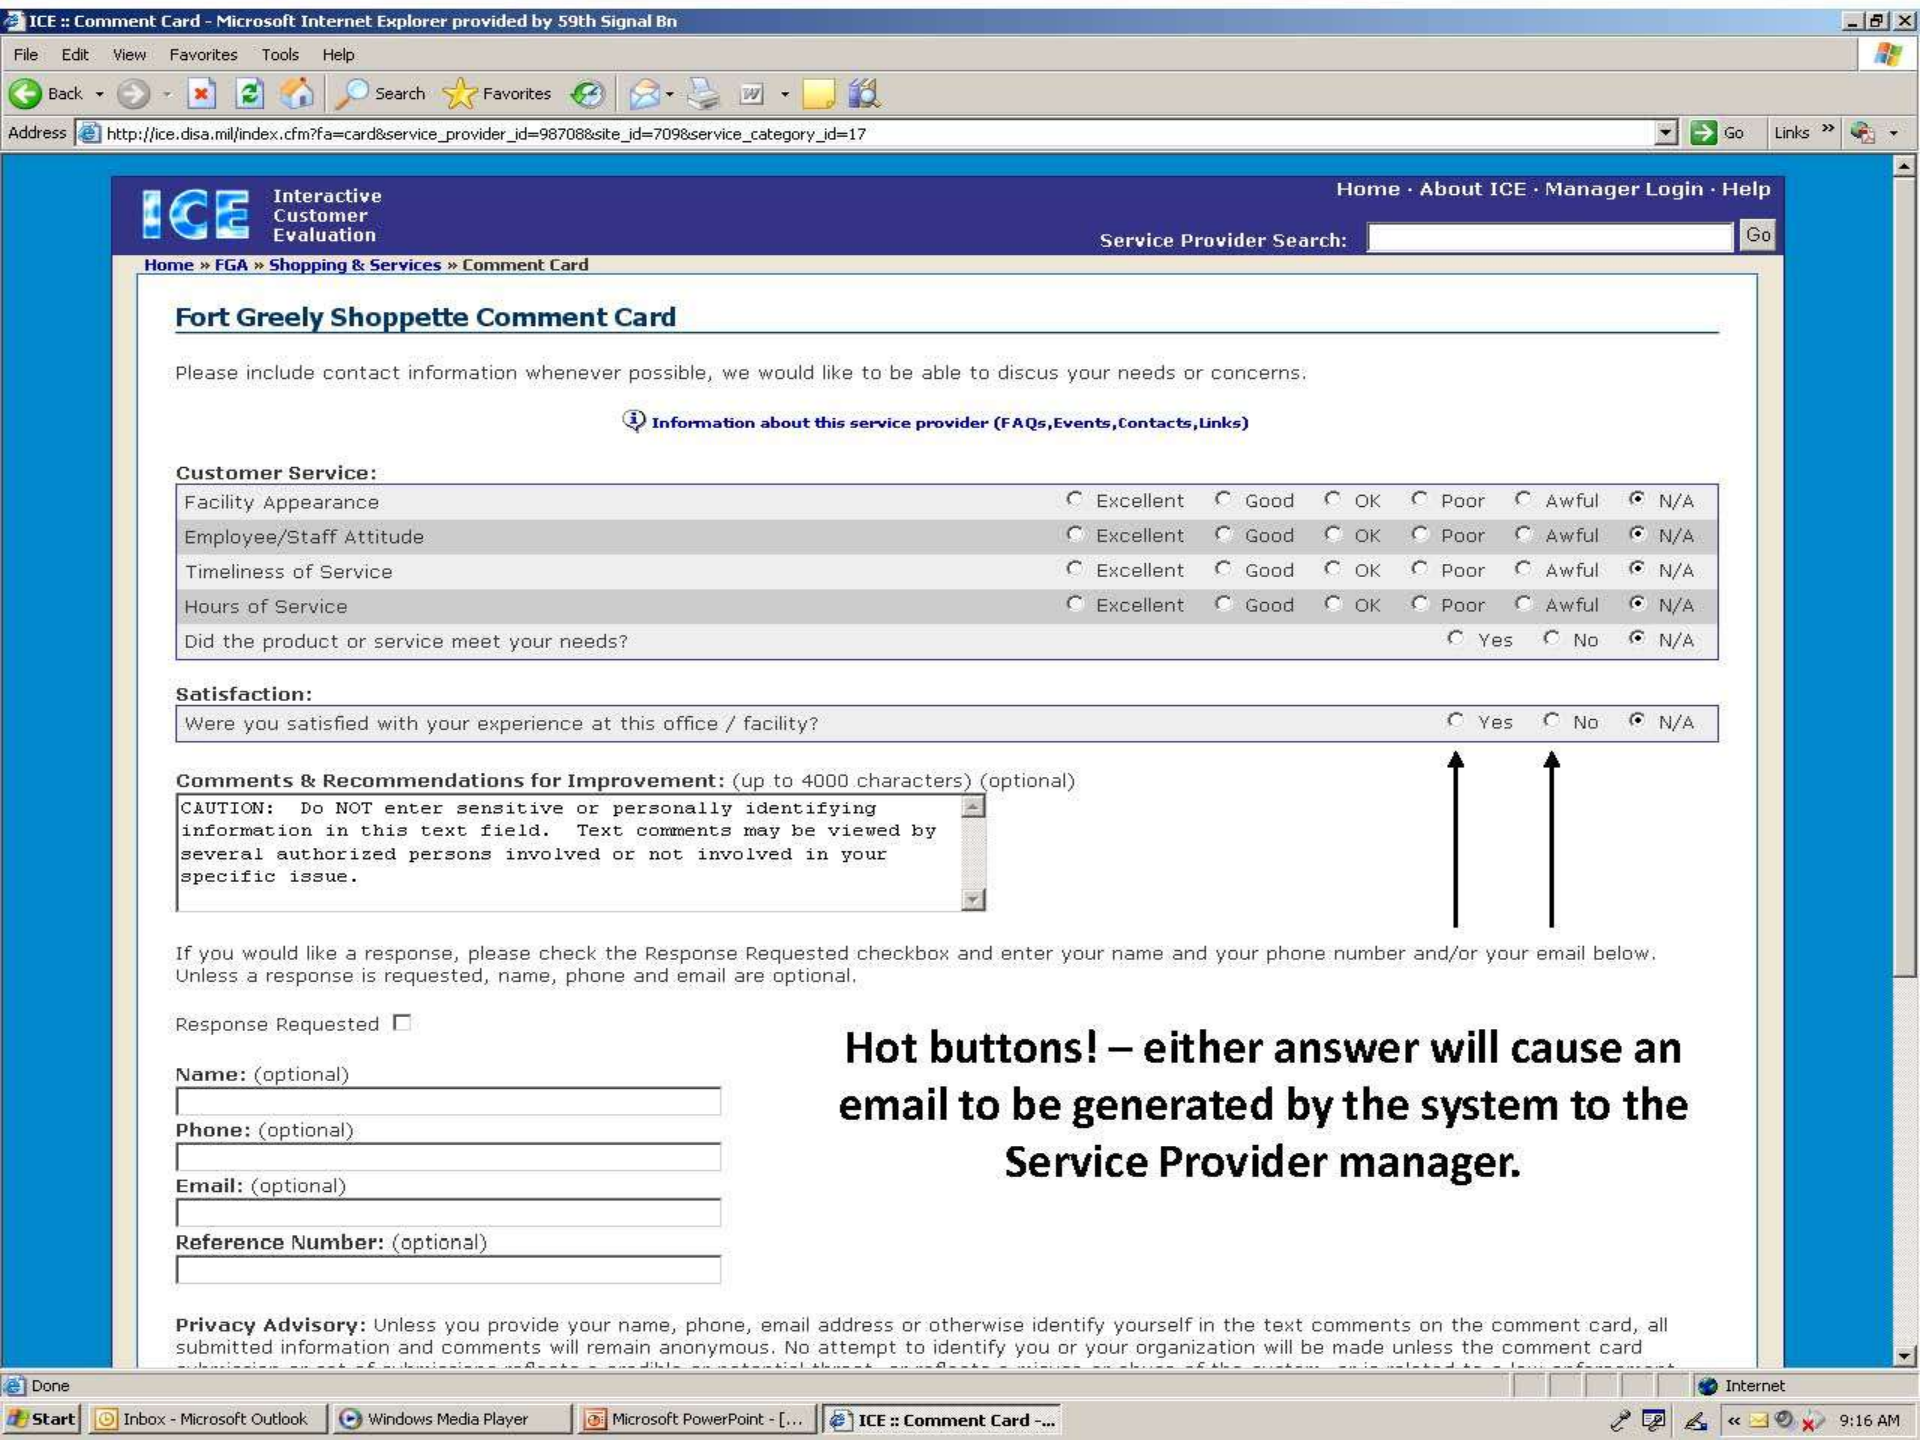

ICE allows DoD customers to rate products and services provided by DoD offices and facilities worldwide. Your comment card ratings are used to improve the products and services available to you.

September's Spotlight Employee: Matt Cole. Photo: Deborah Ward

Spotlight Employee

Where is your home town?

Darlington Pennsylvania

What is your complete job title?

Family & MWR Recreational Lodging Front Desk Clerk

What is the favorite part of your job and why?

I like talking to the guests and getting their feedback on how their stay was and see what we could do to make it even better.

What is the most difficult part of your job and why?

Making sure everyone has all the information that they need to get into their rooms without any problems, and making sure that they enjoy their stay with us. It's very hard to meet everyone's needs but I try to do what I can.

What keeps you motivated?

A lot of things motivate me. I always try to find ways to improve myself in my job performance and getting positive guest satisfaction.

How long have you been at Fort Greely?

I have worked with Family & MWR since 2006. I started working as a bartender at the Sidelines Sports Bar and then became the

SEPTEMBER 2010

The

POWER

behind Fort Greely

manager. Finally, I became the manger and lead bartender of the BOSS program. Now you can find me as the Front Desk Clerk at Family & MWR Lodging.

What do you like most about Fort Greely?

I like that it's small and everyone knows you by your name.

What is your favorite quote?

You're never fully dressed without a smile. (And that's why I always have one on)

What person influenced your life the most and how?

I have had many people that have had an influence in my life and have made me the person I am today, but I have to say, that my Nana (grandma) has always been my best friend! No matter what is going on in my life I know she is there to support me in everything I do. As a kid, I would be at her house about every day playing in the barn or riding on the horses to go have a picnic. I find it difficult being so far away from her.

What is your favorite hobby when not at work?

I like to find new things to do around the house. I am always pretending to be an interior designer and love messing around with that kind of stuff.

What is your favorite Alaskan food?

(Alaska's liquid food)

Well, I have to say, I am a big fan of Alaska brewed beer (Alaska's liquid food). I think they have some really good flavors. My favorite is Alaskan Winter.

What are your Favorite Spots in Alaska?

The Clearwater, Denali National Park, Seward, Valdez & Anchorage. Alaska has a lot of great spots!

Matt handles the reservations for the FMWR Lodging at Fort Greely, processes the payments, attends to inconsistencies that may arise and helps to ensure that your stay with FMWR is an enjoyable one.

INTERCEPTOR 5

Spotlight Employee... a great way to get to know the people you work with.

Ask Wendy!

A monthly column by DHR
featuring Wendy Rodgers

When will the swimming pool be open?

The pool should be open just in time for winter. This will be great so you can get out of the house during the long winter months and have something fun. From what I hear, the construction is coming along great and right on time, the pool should be open by November 15, 2010.

I just moved here and see everyone has cords hanging from the front of their car, what are these for?

Ah yes, here in Alaska not only do we plug in appliances but also our vehicles! With the extreme cold temperatures you will need to plug your car in to make sure it does not freeze up. The common things needed for your car are an engine block heater, oil pan heater, battery warmer, a transmission heater, snow tires, and a blue extension cord which is coated with a special rubber that maintains flexibility in the cold temperatures.

Make sure you get your vehicle winterized before it gets too cold! Also, keep your eyes open for the great classes held by ACS and Safety on preparing for the winter!

What are the Northern Lights and when can I see them?

The Northern Lights are natural light displays in the sky, particularly in the polar regions and usually observed at night. In the northern latitudes the effect is known as the aurora borealis, named after the Roman goddess of dawn, Aurora, and the Greek name for the north wind, Boreas. The Auroras illuminate the northern horizon by a greenish glow or sometimes a faint red. Here is a Web site you can use to keep track of when the activity level is at its highest: goddess.alaska.edu/AuroraForecast. The amount of sleep you lose from sitting up late watching the lights is worth it just to see how beautiful and magical it looks.

Did I see a new fire engine in front of the Fire station?

Yes, there is a new fire engine at the Fire Station! Last year money to purchase new fire apparatus was approved and Fort Greely was fortunate enough to receive one out of 17 new engines that were part of a major purchase Army wide. It is designed and winterized for Alaska and has 4-wheel drive.

After a wind storm, who comes around to clean up all the trash that has blown around post?

We all take part in keeping our residential and working areas clean. We don't have a specific team that comes around and clean up for us. We have to be big boys and girls and clean up our own

messes and yes, sometimes help out and pick up more than our share which leads us to the next question...

Why do I have to close the doors on the dumpster? They aren't full enough for the wind to blow anything out.

Actually, it isn't just the wind that causes the scattering of the trash across post. The ravens help a great deal too. They will fly in the dumpsters and pull trash out and they aren't polite enough to put it back in when they're done. Dumpsters can fill up in a matter of hours - it just depends on when someone gets the urge to clean. Point being, just because it isn't full when you dump the trash doesn't mean it won't be full when your neighbor does. The hard line of the matter is: if you don't start closing the doors on your local dumpster, the Garrison Commander and/or Command Sergeant Major will have it removed from your neighborhood and you will get to drive your trash to another dumpster.

Why doesn't North Haven provide us a freezer in our quarters?

The Army, and now our RCI housing partner, North Haven, only provide appliances to residents stationed OCONUS - which Fort Greely is. But, the Army, and now RCI, have never provided freezers anywhere in the world. You can buy a new freezer at the PX for a few hundred dollars - or use the trunk of your car in the winter. Living here has its advantages!

How come we can't have satellite dishes on our RCI houses?

Because it's an Army wide policy and an RCI policy - they are not your house and therefore that makes the Army and RCI liable for any damages, injuries and financial responsibilities, not you. It is a risk that isn't worth taking with the harsh winds that we experience at Fort Greely. So, then that owns the liability makes the rules, and the Army wide rule is - no satellite dishes on Army/RCI housing. RCI housing is still a great deal - we all know what heating oil and electricity costs off-post. Keep your chin up, things are getting better and it won't be long before we see new housing popping up on post.

If you would like to submit a question for next month's issue, e-mail Wendy at: wendy.rodgers@us.army.mil.

Our new Fort Greely Fire Engine truck designed especially for the harsh and rugged weather here in Alaska.

Pets are wonderful and can be great companions, but stepping in their leftovers is no fun for anyone. Please clean up after your pets - yes, even in the winter at 40 below or colder. No one likes that "special" surprise on the bottom of their shoes!

PLEASE close the dumpster doors. This is not the open-door policy we've all come to appreciate.

Construction Updates

By Jim Verney
DPW

The 2010 construction season at Fort Greely is winding down and every good day from here on out is a blessing. Leaves are falling and the geese are packing up their belongings for the long trip south. Many projects have been completed and many more are approaching completion. We would like to remind everyone that the tentative completion dates found in this article, for outdoor projects, are weather dependant. The following is a summation of the progress made to date:

Community Activities Center:

The parking lot has been graded, footings for street lights are complete, and the conduit and posts for the head bolt heaters are installed. The entire concrete pad for the facility was poured last week and the concrete is in the curing stage.

Driving Range Project:

The Driving Range has been completed and is now open for business. Tokens and equipment can be purchased at the Fort Greely Fitness Center during normal business hours.

Physical Fitness Center Upgrades:

The pool walls and gutters have been poured and the contractor is removing forming material to get ready for the next phase. The surge tank was poured the second week of August and backing around the pool walls has begun. The old fixtures in the locker rooms have been demolished and the prep work for installing the new components is on-going. The project is due to be complete in November.

Primitive Campgrounds:

The construction of the primitive recreational vehi-

cle camp ground began the last full week in August. DPW Roads & Grounds have flagged the area and have begun the clearing process. The next step will be to bring in a rock base and top it with 1.5 inch minus gravel. The camp sites will consist of gravel pads, some fire rings and picnic tables.

Building 662:

The new window installation is complete. The External Insulation Finishing System (EIFS) installation is complete. The work on the new entries is in progress and estimated to be completed by Sept. 30.

Building 663:

The new window installation is complete. The EIFS application is well underway. Installation of the EIFS siding is scheduled to be complete by Sept. 1.

Building 661:

The new window installation is complete. EIFS siding installation well underway with completion scheduled for on or before Sept. 30.

Building 655:

EIFS installation is complete with the exception of some additional work required when the new exterior doors are installed to finish out the project. The Annex for Building 655 is coming along nicely. The interior of the building electrical installation is complete, the sheet rock is up; finished and painted and the unit heaters installed. The new doors for the warm storage building are installed with the exception of the overhead door on the north side. The steel for the siding and the roof has arrived and will be installed by the first week of September.

Building 609:

New windows are being installed.

Building 652:

New R-60 roof installation is in progress.

Cantonment Area Paving: Phase 4 and Phase 5 are complete except for sidewalks at Building 662, head bolts and pavement marking. Phase 7 (from Post Theatre to Chapel) has been started. Phase 6 (parking lot between Building 662 and 661) was paved mid-August. Phase 8 (new side walk around ball field) is complete with the exception of the sec-

tion that will go in front of the new Community Activities Center.

DOYON Utility Infrastructure Upgrades:

Ongoing all summer.

As you can see, a lot has been accomplished and there is much more to do. We ask that you please be patient with the disruptions, slow down while driving and follow the posted traffic pattern signs for directions.

We are getting close to meeting all of our goals for the 2010 construction season; however, please continue to look out for construction workers and be prepared to take alternate routes to your destination.

On the cover: The Alaskan autumn colors will soon give way to frosty grey and ice blue hues as the last warmth of the season flies by. Photo by Deborah Ward, Public Affairs.

Current construction updates keep you informed on what's done and what's left to go.

DESPICABLE ME

(Steve Carell and Kristen Wiig) In a happy suburban neighborhood surrounded by white picket fences with flowering rose bushes, sits a black house with a dead lawn. Unbeknownst to the neighbors, hidden beneath this home is a vast secret hideout. Surrounded by a small army of minions, we discover Gru, planning the biggest heist in the history of the world. He is going to steal the moon. Gru encounters the immense will of three little orphaned girls who look at him and see something that no one else has ever seen: a potential Dad. Rated PG (mild humor and mild action) 98 min

INCEPTION

(Leonardo DiCaprio and Marion Cotillard) Dom Cobb is a skilled thief, the absolute best in the dangerous art of extraction, stealing valuable secrets from deep within the subconscious during the dream state, when the mind is at its most vulnerable. Cobb's rare ability has made him a coveted player in this treacherous new world of corporate espionage, but it has also made him an international fugitive and cost him everything he has ever loved. Rated PG-13 (violence and action throughout) 98 min

THE SORCERER'S APPRENTICE

(Nicolas Cage and Jay Baruchel) Sorcerer in modern-day Manhattan trying to defend the city from his arch-nemesis, Maxim Horvath. Balthazar can't do it alone, so he recruits Dave Stutter, a seemingly average guy who demonstrates hidden potential, as his reluctant protégé. Rated PG (fantasy action violence, some mild rude humor and brief language) 105 min

PREDATORS

(Adrien Brody and Alice Braga) Royce, a mercenary who reluctantly leads a group of elite warriors who come to realize they've been brought together on an alien planet... as prey. With the exception of a disgraced physician, they are all cold-blooded killers, Yakuza, convicts, death squad members - human "predators" that are now being systematically hunted and eliminated by a new breed of alien Predators. Rated R (pervasive language, gore and strong creature violence) 115 min

RAMONA AND BEEZUS

(Selena Gomez, Joey King) Based on the "Ramona" series of novels written by Beverly Cleary. As everyone knows, Ramona Quimby lives on Klickitat Street. The stories of her adventures begin in Beezus and Ramona, where Beezus, who is just turning 10, finds 4-year-old Ramona an exasperating little sister! Rated G - 92 min

SALT

(Angelina Jolie, Liev Schreiber) CIA officer Evelyn Salt is fingered as a Russian sleeper spy. She eludes capture by superiors who are convinced she is out to assassinate the president. While trying to reunite with her family, she struggles to prove someone else is the traitor. Rated PG-13 (intense sequences of action and intense sequences of violence) 105 min

CYRUS

(John C. Reilly, Jonah Hill) With John's social life at a standstill and his ex-wife about to get remarried, a down on his luck divorcee finally meets the woman of his dreams, only to discover she has another man in her life - her son. But at the urging of his ex-wife and best friend Jamie, John grudgingly agrees to join her and her fiancé Tim at a party. To his and everyone else's surprise, he actually manages to meet someone: the gorgeous and spirited Molly. Their chemistry is immediate. The relationship takes off quickly but Molly is oddly reluctant to take the relationship beyond John's house. Perplexed, he follows her home and discovers the other man in Molly's life: her 21-year-old son, Cyrus. Cyrus will go to any lengths to protect Molly and is definitely not ready to share her with anyone, especially John. Before long, the two are locked in a battle of wits for the woman they both love. Rated R (language and some sexual material) 91 min

CATS & DOGS THE REVENGE OF KITTY GALORE

(Christina Applegate and Michael Clarke Duncan) In the age-old battle between cats and dogs, one crazed feline has taken things a paw too far. Kitty Galore, formerly an agent for cat spy organization MEOWS, has gone rogue and hatched a diabolical plan to not only bring her canine enemies to heel, but take down her former kitty comrades and make the world her scratching post. Faced with this unprecedented threat, cats and dogs will be forced to join forces for the first time in history in an unlikely alliance to save themselves - and their humans. Rated PG (animal action and humor) 82 min

CHARLIE ST. CLOUD

(Zac Efron and Chastity Tahan) Charlie St. Cloud forms a unique connection to the afterlife after surviving the tragic car accident that claimed his younger brother. Charlie is wracked with guilt, convinced that if he had just been more careful behind the wheel, Sam would still be alive today. Before Charlie can move on with his life he'll have to first let go of his past, and bid his beloved brother Sam one final, heartfelt farewell. Rated PG-13 (language including some sexual references, an intense accident scene and some sensuality) 99 min

Welcome to the Interior of Alaska

Fort Greely is an incredible place to work, live and play. The area is full of exciting adventures waiting for you to enjoy! Just stepping out into your front yard can lead to an incredible encounter with the local wildlife, such as moose or fox. Spectacular views of the gorgeous scenery that surrounds us daily, whether it is a snowcapped mountain or the northern lights dancing across the night sky, will only enhance the experience you will have at Fort Greely.

We hope you find the Fort Greely and Delta Junction communities to be the "Friendly Frontier" as it is known to visitors and locals alike and we hope the time you spend here is full of fond memories and lifelong friends. Once again, on behalf of Fort Greely and the Delta Junction community, "Welcome to the Interior of Alaska!"

INTERCEPTOR

In the past, energy has been a side conversation for the Army. It tended to be an area of concern for some experts and specialists, but for a lot of us, whether Soldiers and Civilians in the workplace or Family members in the community, we did not give it much thought.
